### Importation of Firearms

Visitors bringing firearms into South Africa for hunting purposes will be required to complete the SAP 520 Temporary Import Application form which is available from your outfitter or can be downloaded from the SAPS website at [www.saps.gov.za](http://www.saps.gov.za). We would suggest filling in the form beforehand to save processing time for yourself and the police.

#### Instructions for filling in SAP 520 form

1. Black ink must be used to complete the form.
2. The form should be left unsigned until the document is finalized in front of the police official issuing the actual permit. This gives the police official the opportunity of making sure that the signature is an original and is yours. Should you sign the form beforehand please make sure the form with your original signature is handed in and not a copy.
3. Please note that not all sections of the form apply. Visitors bringing in their own firearms for hunting purposes should concentrate on filling in the following:  
Section D – temporary import or export permit  
Section E – 1–25.4  
Section G  
Section I – must fill in all details requested  
Section J – remember NOT to sign this until in the presence of the police officer at the firearm office.

#### Additional requirements along with the SAP 520

##### **1. Identity and Flight Details**

- Passport
- Return Airline Ticket

##### **2. Other supporting Documentation**

- **Proof of Ownership**  
Firearm licences, documentary proof etc. For USA citizens Customs Declaration Form 4457 (officially stamped) is acceptable.
- **Proof of Export**  
Documentary proof of export from country of origin.
- **Motivation Letter from Client**  
This is a letter stating that he/she is temporarily importing the referred to firearm/s for the purpose of hunting, and to include that the firearm/s is/are required as he/she will be hunting (list the species to be hunted) etc.
- **Invitation Letter from the Hunting Outfitter**  
This is supporting documentation from the Hunting Outfitter/Company with whom the client will be hunting, to include full name of the company, full contact details and address, dates and

location where the client will be hunting and confirming that the applicant will be using the specific firearm/s as applied for.

- **Any other supporting documents**

Firearms will be physically inspected to ensure the serial number/s match those of the licenses (proof of ownership) and the application form. Ammunition will also be inspected.

For visitors clearing customs at OR Tambo International Airport (Johannesburg), please take note of the following procedure to be followed upon arrival:

- Clear passport control in the terminal where your flight arrives (generally SAA and its co-partners at Terminal 2 and all other airlines at Terminal 1).
- Proceed to baggage claim at the respective carousel. Pick up general baggage then proceed to the respective Airline Help Desk to pick up your firearm/s from the airline company and sign a receipt for the firearm/s. Ask the Airline Help Desk to direct you to the South African Police Firearm Office. Depending on the terminal where you arrive, they may need to escort you to the Office.
- Proceed to the South African Police Firearm Office. Do not at this point proceed to customs.
- Upon receipt of the temporary import permit at the SAPS Firearm Office, proceed to customs, the Red Zone, where you declare the firearm/s and finish other customs clearance procedures.

For visitors clearing Customs at any other international points of entry, please take note of the relevant information above which relates to documentation requirements etc.

**Please ensure sufficient time is allowed to go through the temporary importation process and to clear customs. During the busy periods of the hunting season up to seventy clients may be needing permits at the same time. We would therefore recommend at least three (3) hours to be set aside for this procedure and between connecting flights.**

### **Firearm / Ammunition Allowances and Specifications**

No more than one firearm per calibre and 200 rounds per firearm will be permitted per person. No ammunition for other rifle calibres will be permitted.

An exception to this may apply for shotguns where more than one of the same calibre may be allowed for bird hunting purposes if the client produces, on arrival at the SAPS Firearm Office, an acceptable written motivation as to why more than one is required.

Firearms must bear the manufacturer's serial number and any other mark by which the the firearm can be identified. The identification number must be stamped and the mark affixed in the prescribed manner on the barrel or the frame or the receiver of the firearm.

### **Handguns will be allowed into the country, but only for hunting purposes.**

Any visitor wanting to bring in a handgun in this regard needs to have a letter from an association in the country of origin, stating that the handgun will be used for hunting purposes.

**Prohibited** firearms which may **NOT** be imported into South Africa include:

- Any fully automatic weapon
- Any semi-automatic weapon
- Handgun/s for self-defence
- Weapons which fall under military categories

### **General Provisions**

#### **Temporary Import Permits:**

- May only be issued to a foreign visitor for the purpose of hunting.
- Will be issued subject to the requirements of the Act with regard to the carrying, storage, safe custody and transport of a firearm and ammunition.
- Subject to the use of the firearm only for the purpose set out in the permit.

- Subject to the fact that no person who holds a temporary permit is allowed to transfer the firearm to another person in South Africa without prior written permission having been obtained from the Central Firearm Register.
- Whenever the holder of a temporary import permit leaves the Republic of South Africa, the firearm for which the permit is issued must accompany the holder of the permit.
- Possession of no more than the quantity of cartridges determined by the Registrar and specified on the permit for each firearm to which the temporary import permit applies.
- A Temporary Import Permit shall not be issued for a period exceeding 6 months at a time.
- Applicants must be 21 years of age or older.
- Should a firearm not be declared on arrival and a Temporary Import Permit not issued, you will face severe penalties and possible arrest on departure from South Africa.

Applications for Temporary Import Permits can be made in advance to the Central Firearm Register. Ask your Hunting Outfitter to assist you in this regard.

Please ensure that your firearm/s arrive on the same flight as you do. This must be done with the airline company on departure. Your firearm/s may only be signed for by you and will not be released to your Outfitter or Professional Hunter should it/they arrive on a separate flight. If the firearm/s does/do not arrive with the passenger, the passenger must proceed to his final destination in South Africa and apply at the closest Police Station for a Temporary Import Permit. When the Temporary Import Permit has been issued, the original permit with the keys to the rifle case must be couriered to the border post of entry. A Transport Agent with transport permit must be appointed by the passenger. This Transport Agent must have a letter from the passenger instructing him/her to transport the firearm/s to the passenger in person. The firearm/s will be inspected by the police at the port of entry and the firearm/s and permit will be handed to the Transport Agent to be transported to the passenger.

Please do not pay for any service regarding the handling of firearms at OR Tambo International Airport or any port of entry. The issuing of the SAP 520 is a free service and the South African Police Service asks clients not to pay anybody involved in handling firearms from the time of arrival in South Africa right through until you receive your firearm/s and the permit from the SAPS. Clients that pay various airline staff, security staff or porters involved are actually creating a problem. Please note, however, there is a handling fee charged by airlines and/or security companies for the handling of handguns, and some airlines have started charging a handling fee for all firearms. We suggest checking with your airline regarding any "official" fees that may be required.

There is no permit required, nor any charge by the South African Police Service, for a bow. Handling fees are charged by airline and/or security companies for bows.

**Please note that NO firearms will be held for safekeeping by the SAPS. If a client brings in a prohibited firearm, brings in more than what is allowed or lacks the necessary documentation and his request for a Temporary Import Permit is denied, the involved firearm/s must be exported immediately by the client or surrendered to the State.**

### **In Transit Passengers (Transiting South Africa)**

It is critical that you check with and confirm with the airline/s involved, before departure, what their procedure is for the transfer of baggage and/or firearms.

If the airline does transfer your baggage/firearm/s and you have booked them through to the final destination, and you stay in the In-Transit areas and do not clear South African Customs, then you need not go through the temporary import process.

If your airline company will not transfer your baggage and firearm/s to you connecting airline/flight, then you must collect your baggage/firearm/s and go through the entire entry process. If this is the case, the South African limitations, requirements etc. will apply. This also applies if you are overnighing in South Africa before flying to your country of destination.
